

PRS and NRL schedule	Match Description
Feb 1st NRL Alternate range at high power Feb 2nd PRS Alternate range at high power	PRS 22 Rimfire matches consist of 6-12 stages of 10-20 rounds. Shooters will engage a series of steel targets at various ranges from one to multiple positions from a prop or barricade. New shooters are given additional time and coaching. These matches count for points in the Precision rifle series rimfire division. Membership is not required to participate. If you don't have the gear, there is usually a loaner or 2 ready to go. Come on out and have a good time ringing the steel. Sign in starts at 9 matches at 10, \$20.00 per shooter The goal of the NRL22 is to make Precision Rifle shooting more available to every community. The NRL22 understands that the shooting community is fascinated with Precision Rifle, but most localities are not fortunate enough to have a 1000-yard range. However, nearly all localities have access to 100-yard ranges and most competitors own 22 rifles. The monthly course of fire, NRL22 Standard Target Package and standard barricades are all intended to be turnkey solutions to simple, fun and affordable Precision Rifle matches. Local clubs may use and submit scores for the monthly courses of fire to compete with the entire country. NRL22 is intended to grow the sport.
